

## **Climb**

I've been aching for a change  
I've been tracking my time  
I've been trying new arrangements  
I've been sick of ways that suffocate my prime  
You know there is nothing left  
You know mistakes have been made  
You know I'm not to blame  
You know waiting won't make me less afraid

### *Pre-chorus*

Is it enough? It is enough to climb  
Is it enough? It is enough to climb

### *Chorus*

Who played it, who faked it to their prime  
I dropped it; I molded me to be mine  
No stopping; no stopping me while I climb  
I dropped it; I molded me to be mine  
To be mine

I see the love within me  
I see past my darkest days  
I see signs of forgiveness  
I've seen the Lord ahead: I'm ready to change  
You won't follow fake kindness  
You won't be scared by the fight  
You won't wallow into blindness  
You won't sweat, no  
See my dreams ignite

### *Pre-chorus*

### *Chorus*

Lead Section

### *Chorus*

No stopping, no stopping me while I climb  
I dropped it; I molded me to be mine  
To be mine (vamp)
