

“Got Me”

by Daniel Paul Work (ASCAP/SmileyNote Studios, inc c2020)

Nothing new, you and me
Just two people in love with one beautiful dream, ooh...

My heart, my soul I give to you alone, to you alone
my heart, my soul

You burst by all my hidden doors, broke through the ones that I ignored
my thoughts and tender touch

You'll never be lonely
you'll never be lonely

Hold me too tight when I love you
Hold me too tight when I love you
you got me, you got me

Breath inside me, deep and slowly
hold me, slowly
kiss me gently, lay down beside me
lay down, lay down beside me
you'll never be lonely

(instrumental break)

Hold me like you'll never, ever, never leave, never leave
So hang on tight and never, ever let me go

Hold me too tight when I love you
Hold me too tight when I love you, ooh
hold me too tight, you got me, you got me

Breath inside me, deep and slowly
hold me, slowly
kiss me gently, lay down beside me
lay down

You'll never be lonely, cause you got me
never be lonely, cause you got me
You'll never be lonely
you got me, you got me, got me, got me

Nothing new, you and me
just two people in love with one beautiful dream, ooh...
