

PURE INSANITY

by Daniel Paul Work (ASCAP/SmileyNote Studios, inc. c2020)

When did you leave
Do shadows turn and start to hide from outside

Where did you go, where did you go
Where did you go, standing close to the edge

No more laughing out loud
Or dancing wild in to the crowd

Staying up all the night, (where did you go) all the night, all the night
Kissing 'til dawn
Where did you go, did you go
Crank it up when you sing

When did you leave
No spinning 'round until you fall or kickin' piles of leaves

I miss your insanity, I miss your raw pure insanity
I miss your insanity, I miss your raw pure insanity

(Instrumental Bridge)

Where - did - you - go
I miss your insanity

Run fast or walk in the rain
or flying high jumping out of a plane

I miss your insanity, I miss your raw pure insanity (vamp)
